### EDMONTON REPORT

By Donald F. Smith  
Special Correspondent

EDMONTON: Matters of education bid fair to hold a major spot in the activities of the current session of the Alberta legislature.

The announcement by Hon. A. O. Aalborg, minister of education, last week that the government plans to institute a six-week training course for teachers this summer in an effort to fill some of the teacherless classrooms was greeted with mixed feelings.

It appears that the opinions of all will get a good airing before the legislature's standing committee on education. A move by the Liberal party to open the question for study and representation before the committee was accepted by the house last week.

Mr. Aalborg was opposed to the Liberal's original proposal to have the committee study only the teacher shortage and his request that the committee study all phases of education, including the shortage, school construction costs and grants and the curriculum, was passed with the support of the large Social Credit majority.

The committee is expected to hear representations from the Alberta Teachers' Association, which fears the short courses will lower teacher standards, the Alberta School Trustees' Association, home and school groups and other interested in education.

The short courses, designed to give Grade 12 students who have graduated, and those expected to graduate, a six-week training program to fit them for a year's classroom experience, was rapped by the former education minister, R. Earl Ansley, who represents the Leduc constituency as an Independent Social Credit member on the opposition side of the house, and by J. Percy Page, Edmonton Progressive Conservative member.

Mr. Ansley contended that the only method of obtaining more teachers is to increase salaries and raise living and working conditions. Mr. Aalborg's claim is that the short-course graduates will only be allowed to teach in those schools for which qualified teachers cannot be obtained. After one year in the classroom it is proposed that the student-teachers (as they will be known) will return to the University of Alberta summer school for future teacher training courses. School inspectors would keep close watch on their classroom ability to weed out those who show little promise.

Another matter close to the hearts of most citizens, Alberta's highways, was subject to criticism by Liberal Leader J. Harper Prowse and defended by the man who builds them, Hon. Gordon E. Taylor, minister of highways.

Mr. Taylor described long stretches, some more than 100 miles long, where there have been no failures, in answer to Mr. Prowse's claim that you could not drive 100 yards without striking a patched piece of pavement. An advocate of the present type of "flexible" highway construction, Mr. Taylor said a test will be made this year on a stretch of road by using cement, as advocated by Mr. Prowse in his address.

The highways minister said it is unfair to criticize the government's road building on the basis of roads built before the adoption, a year or two ago, of modern standards, including adequate sub-grades, careful soil selection and bases of at least nine inches thickness.

Hon. A. J. Hooke, minister of economic affairs, made a back-handed slap at federal government immigration policies, by stating that the Alberta government, through Alberta House, at London, carefully screens prospective new citizens for the province.

While immigrants, professional and skilled persons, came to Alberta under provincial sponsorship, another 11,000 came under federal sponsorship or on their own, he said.

Government back-benchers, of whom more than 10 spoke during the first full week of sittings, generally praised the government's past and proposed policies. Some made mild requests for improved road facilities.

The Vulcan Seed Cleaning Association Ltd. at its first general meeting in the Legion hall on February 18, elected a permanent Board of Directors consisting of six, leaving two to be appointed by the County Council, with the District Agriculturist at Claresholm, Hugh Michael, automatically becoming a member representing the Provincial Department of Agriculture.

At the first meeting of the new Board held on March 2, C. H. Andrews was elected President with Earl Erickson as vice-president and H. S. Burns as secretary-treasurer. The other members of the Board are Walter Griffin of Champion, Martin Gottenberg of Vulcan, Keith Fisher of Vulcan, W. J. Hagedorn of Mossleigh, Ivan Haga and Donald Smith are the representatives of the council.

These men will be putting on an intensive campaign in the next few weeks to increase the number of shareholders and the share capital. There seems to be little doubt that the desired amount will be raised in the next few weeks.

The opinion of the Board is that the plant should be located on track if at all possible as there is always the possibility that seed grain may need to be shipped in or out of the district. Having the plant on track makes for more economical handling of grain as the grain can be poured from cars directly into the plant.

The latest and most modern of these plants is located at Strome, Alta. and the members of the board are contemplating a trip to that plant to witness at first hand the method of construction and operation.

## Arrowwood

Mr. and Mrs. D. Oldfield spent the past weekend visiting in Calgary.

Margaret Blackie spent a few days in Vulcan hospital last week. Mr. and Mrs. W. Blackie, Bill Blackie and Miss L. Hathaway attended the Southern Alberta Aberdeen Angus Club Banquet and entertainment held in High River last week.

erally praised the government's past and proposed policies. Some made mild requests for improved road facilities.

As the week ended, observers and legislative members still were waiting for something (almost anything) to happen. Perhaps it will when Premier Manning introduces his budget, probably Friday night.

### VACATION LURES FOR CANADIANS

Late winter vacations are becoming "a must" with many Canadians who wish to escape the bitter cold of late winter or the slushy snows of early spring. Canadian Pacific Air Lines' new service to Mexico and South America offers a quick escape from Old Man Winter's last cold clutches to

the sunnier climes of the south. A direct service from Vancouver to Mexico City puts that charming latin land within 10 hours of Canada. Equally quick flights by giant new DC-6B aircraft also put the alluring Hawaiian Islands within easy reach. Special tours in Mexico have been arranged including visits to famed Acapulco (upper right), America's own Riviera, where native divers defy

death daily (see circle) plunging from towering heights into the broiling waters of the Pacific. At Mexico City visits to the new University, library of which is shown here (lower left), and to the famed "floating gardens" are musts for vacationists. Sunbathed Hawaii offers, among many other attractions, Diamond Head and one of the world's best-known beaches, Waikiki (lower right).

### County Committees Meet

## Open Negotiations On County Teachers' Salaries

County council and committee meetings were held during the week of February 15.

Principal item of business at the school committee meeting was the opening of salary negotiations with the teachers. After discussing salaries for some time with the local A.T.A. salary negotiating committee, the matter was adjourned until March 13.

County councillors gave two readings to a by-law to authorize County participation in the construction of a seed cleaning plant in Vulcan. Councillors Donald B. Smith and Ivan Haga were appointed to the Board of Directors of the seed cleaning association.

### Awarded Prize For Best Flax

At the short course and seed fair held in Lethbridge last week, Gordon E. Clayton of Vulcan was awarded the Alberta Linseed Oil Co. Ltd. prize for the best flax at the show.

At a luncheon held in conjunction with the seed fair and short course, Brown McDonald and John Hartley, exhibitors of the champion Suffolk and Hampshire rams at the Toronto Royal, were among the guests of honor.

Rose Norton and a piano solo by Mrs. H. Williams. After two contests were enjoyed, Mr. McDaniels presented Mr. and Mrs. Deeter with a mantel chime clock on behalf of their friends in this community. Following this a delicious lunch was served.

The Young People's Group met at the home of O. Oldfield on Sunday night. After games and slides were shown, a delicious lunch was served.

The Open Bonspiel held here was finally brought to a close last week. Winners were as follows: 1st event, 1. Androsch, 2. Morrell, 3. Mason, 4. M. Norton. 2nd Event: 1. Culp, 2. Morrell, 3. Fredericks, 4. Roberts. 3rd Event, 1. D. Beagle, 2. Maxwell, 3. D. Williams, 4. J. Beagle.

Bob Brown and Lawrence Welsh low have both joined the RCAF. We wish them both the best of luck in their new careers.

Don't forget the three-act play entitled "The Importance of Being Earnest" to be held in Arrowwood March 12.

Nellie Dodson of Nanton took the services at the Church of Christ last Sunday.

### WI Hears Talk on Rheumatic Fever

The February meeting of the Kirkcaldy W.I. met at the home of Mrs. Joe Main with nine members and six guests present with Miss Ware presiding. Roll call was answered by Famous Men in Medicine and Why.

Miss Nettie Ware, president, was appointed to attend as delegate to the District 4 Conference in Calgary on March 8 and 9.

It was decided to cater to the Dorch Bros. sale on March 24. A committee was formed to attend to this.

A card party, recently postponed will be held on March 5 at the school.

Mrs. Doug Galbraith handed out the yearly programs. A vote of thanks was extended to Mrs. Galbraith and Mr. Munro for typing these out.

Dr. E. M. Gee of Vulcan was the guest speaker choosing "Rheumatic Fever" as his topic. He described this as being the master traitor in medicine, and no cure has yet been found. Early diagnosis helps prevent serious effects. A child may eat and play well and appear normal but have rise in temperature, joint pains, raised sedimentation rate or a high white blood count. These factors are important in detecting the onset of the disease. Many occurrences of the disease may cause it to become chronic. The best treatment is to remain in bed until temperature, sedimentation rate and white blood count are normal for two weeks.

Dr. Gee stated that rheumatic fever was the leading cause of death in younger age groups. It is not a crippling disease but leaves the heart affected in many cases, and often affects other organisms. The 30-35 age group that had a re-occurrence of the fever can not lead the same life as a well person. Sulfa drug is considered a good prophylactic for prevention of attacks of rheumatic fever.

In closing, Dr. Gee also touched on other heart ailments, mentioning high blood pressure, and the drugs some doctors administer to reduce HBP in severe cases.

Mrs. Doug Galbraith won the tea draw. The next meeting will be held at the home of Mrs. A. W. Maisey on Wednesday, March 31. A tasty lunch was served by the hostess.

### Local Winners of Speaking Contest

Eloise Whiteside and Marlene Urquhart were the winners of the elimination contest held at the IOOF hall to choose two candidates to represent the Vulcan district in the final elimination contest Mar. 16 when the Vulcan candidates will compete against candidates from the Milo district to determine the winner of the "Pilgrimage for Youth" public speaking contest sponsored by the IOOF.

About 60 persons were present to hear the six young Vulcan candidates speak on topics associated with the work of the United Nations. Miss Whiteside placed first in the contest and Miss Urquhart second. Other contestants were Leeland Arnold, Deanna Rushfeldt, Grace Booth and Mary Earl.

The IOOF lodge extends thanks to the judges, Messrs. Hoyt and McDonald of Champion and Andrew Schrag of Vulcan, and to Miss Terrie McAfee for musical selections.

At the Milo-Vulcan contest to be held in the IOOF hall here the evening of March 16, a silver collection will be taken, to be donated to the Legion Polio Fund.

### Regular Meeting Missionary Society

The WMS of the Vulcan United Church held its regular monthly meeting at the home of Mrs. Frank Hess.

Mrs. Caryl Jordan gave a report on the Presbyterian WMS held at Nanton on Feb. 7 where tribute was paid to the late Grandma Love in a beautiful WMS Memorial Service.

Several articles of children's clothing, beautifully made by one of its members, were presented to the Auxiliary, to be sent to a missionary in Korea, whom the WMS has adopted as "Prayer-Missionary" and to whom clothing and other relief goods are to be sent to assist in her work of Christian Charity at the Mission station where she is situated.

Plans were also made for the sale of home cooking, fancy work and aprons as well as a "Parcel Post" to be held on March 20 in the basement of the United Church. Tea and sandwiches will be served. Arrangements were completed for the World Day of Prayer program to be held March 5 at the United Church.

Mrs. Parslow led the worship service and Mrs. Allan presented a fine program from the study book, assisted by Mrs. Jordan, Mrs. Volsey, Mrs. MacMillan and Mrs. Jantzie.

The hostess served a delicious lunch at the close of the meeting.

### Heavier-than-usual Vote

## Findlay and Richardson Named To Town Council

Voters of the town of Vulcan turned out in greater-than-usual numbers Monday to name two new members of the town council. There were four candidates—C. L. (Montie) Findlay, M. W. (Bud) Haverty, D. D. McQueen and J. Lawrence Richardson. Elected were Montie Findlay, who headed the poll, and Lawrence Richardson who was elected by a one-vote margin over Bud Haverty. A total of 215 voters turned out to mark their ballots, out of about 750 eligible voters. Mrs. Edna Farr was returning officer.

Other members of the town council are Mayor W. D. Allan and Councillors M. R. Morrison, J. M. Jamison, M. A. Jesse and C. S. McAskle.

### Milo Curlers Place Fourth

Robbie Thomson's Milo high school curlers, representing Alberta, tied for fourth place with Ontario, British Columbia and Northern Ontario in the Canadian high school curling championship playoffs held at Hamilton, Ont., last week.

Saskatchewan won the title and the Sifton Trophy, with Manitoba placing second and New Brunswick third.

The Alberta rink had four wins and five losses. The players, Robbie Thomson, Murray Phillips, Bob McCord and Darwin Phillips, were accompanied east by their coach, Tom Clarke, and over 20 supporters.

### Talk on Producer Marketing Boards

John Rhodes of Brant was the guest speaker on Feb. 22 at the Berrywater Community Centre when he addressed the FUA members of the Berrywater and Red Cross districts.

Mr. Rhodes' talk, on the benefits to be derived from Producer Marketing Boards and the legislation needed to put such boards in operation in the province, elicited a study of this subject by the FUA and FWUA locals.

About 40 persons were in attendance and all enjoyed the address and the instructive question period that followed.

The regular meeting of the Berrywater FWUA and FUA were held at the home of Mr. and Mrs. D. B. Sim with a good attendance at each meeting. New members from the Reid Hill district were welcomed.

The ladies of the FWUA were pleased to receive word that their nominee, Miss Norma Adam, was the choice of District 12 as its candidate for Junior FUA queen, who will be elected to preside at the Farm Young People's Week in June. The support of district locals in the sale of queen contest tickets is solicited.

It was agreed by both locals to hold the next meeting on March 24 at the Reid Hill hall, since there is a number of new members in that district. Plans are being made to have a guest speaker at this meeting, if possible an official of the PFRA to explain the set-up of this body in relation to the farmer. This will be an evening meeting with a short business session preceding the talk and lunch served at the close and an invitation to attend is extended to all interested.

Following the business meeting C. Webber conducted an enjoyable contest. The men joined the ladies to hear a short resume of the history of farm organization in the province, with special reference to the Berrywater district given by Mrs. H. C. Douglass. A delicious plate luncheon was served by the hostess assisted by the lunch committee.

### THE WEATHER

March came in like the proverbial lion insofar as temperature was concerned—the mercury dropping to five below. A gradual return to warmer weather is forecast and the ground remains clear of snow.

### Canadian Legion Polio Campaign Nets \$1,264

A statement of receipts and payments of the fund-raising campaign conducted by the Vulcan Branch of the Canadian Legion on behalf of the Canadian Foundation for Poliomyelitis is presented elsewhere in this issue and shows that the local campaign was very successful.

Individual donations amounted to \$519.00, canister collections were \$52.03 and net profits from the bingo amounted to \$693.26. Prizes for the bingo were given at cost by the local merchants and the Legion paid expenses of advertising and printing.

Total net receipts from the campaign of \$1,264.27 have been forwarded to the Legion's Provincial Command for the polio fund.

### Juveniles Lose In Second Round

The Vulcan Lions juvenile hockey team, playing in the second round of the provincial playoffs, lost both games in a two-game series with the Crows Nest Pass juvenile team.

At Lethbridge Wednesday of last week, the local boys took the short end of a 12-2 score. In the second game, played at Bellevue on Sunday, the Vulcanites played an excellent game although losing to the strong Pass aggregation by an 7-5 score. Vulcan goals on Sunday were scored by Hunter, W. Roebuck and B. Bell.

This Thursday night, the juveniles will take on their sponsors, the Vulcan Lions Club, in a game at 8.30 in the local arena.

### Library Notes

Library hours: Daily from 4 to 5 Tuesdays, 2 to 5; Saturdays 2 to 5 and 7 to 9.

The quarterly meeting of the Library Committee was held in the County Office, Vulcan, on February 25, 1954. Financial report indicated that all bills and accounts are paid and that the Library Committee has a balance of 60 cents on hand. All residents of the Vulcan area are urged to purchase their library cards in the near future.

Amongst the new books presently on the library shelves is "Anthony Adverse." This has become a standard by which all historical fiction is inevitably measured. It has become a classic in its own time, one of the most loved and influential books of this century. When 10,000 copies was a large edition, it sold over a million copies. If you haven't read Anthony Adverse, borrow it from the library in the near future.

Another old favorite presently on the library shelves is "Gone With The Wind." It is well worth reading again if you have read it before. One of the critics says of this book "Not many books leave the reader so breathless. It is not too much to say that it is among the most powerful and original novels in American literature, a book to own and reread and re-member forever."

### SERVICE BOARD NOTES

H. S. Burns, Field Supervisor

Your Agricultural Service Board will shortly be circulating petitions to decide whether or not to set up a Bang's restricted or complete vaccination area in the County of Vulcan. We would like, through these columns to inform all stock owners in the area how the plan works and how it is administered.

The Department of Agriculture has two plans for accomplishing this work. Plan 1 calls for the immediate blood testing of all cattle. This plan is not being used by any of the Municipalities in the province at the present time, due to the high cost and difficulties of the work, but rather the 12 areas at present set up for this work are using Plan 2, which requires that all heifer calves shall be vaccinated between the ages of 4 and 8 months, unless due to circumstances the Service Board or its inspectors permit vaccination at an older age. This would be carried on for a period of 5 or 6 years or longer, or to use the words of the regulations which say "All cattle within the area shall be submitted to a Bovine Brucellosis test as soon as practical by inspectors approved by the Minister of Agriculture and shall be re-tested when-

ever deemed necessary by the Minister."

Owners of cattle will be expected to assist the Veterinarian to test, vaccinate, etc. and assemble his cattle and provide such additional help as is necessary. You will note from the foregoing that the plan calls for complete vaccination of calves, which would need to be done on a systematic basis, working a complete township at a time until the entire County was covered.

Next week I will try to explain the few regulations pertaining to community pastures and auction sales, none of which is too difficult under this plan.

### SERVICE BOARD NOTES

H. S. Burns, Field Supervisor

The season to be thinking of Warble Fly control has now returned and progressive stockmen will be considering the best means of combatting this pest, the losses to cattlemen reaching staggering figures annually from this source, through grub holes in hides, losses in milk yields poor gains in pasture, and sometimes as much as two lbs. of meat has to be trimmed from valuable cuts. These and many other losses add up to very important reasons why it is necessary to be examining cattle now for this pest and taking steps to spray or otherwise treat them.

February is about the best time to be examining them and March, April and May are considered the best months for spraying, varying somewhat in different localities. When the most mature grubs are about ready to emerge is about the right time to commence spraying, with the second treatment following one month later. Usually young stock are the most affected so they are the most desirable for examination.

In order to obtain the best results, spray the mixture of 100 gallons of water to which has been added 7½ lbs. of 5 percent Rotenone and about 1 lb. of Tide or Dreft, at a pressure of 400-600 lbs. pressure to the square inch. Some people, lacking these facilities, use a brush and apply the solution in that way.

When using the spray method, a flat fan shaped spray delivered in a pattern about 3 or 4 inches wide is the most desirable and the nozzle should be held about 12 inches from the animal's back.

Research is constantly improving soaps and cleansers, adding chemicals that brighten fabrics, suppress bacterial growth and give better detergent action.

the afternoon work shop session.  
He discussed progress and develop-

succeeded in enrolling over 80,000  
to contribute this amount.

Dr. R. O. Bradley, administrator

was speaker at the annual meeting.  
He described the important role  
that voluntary agencies such as the  
Canadian Cancer Society can play  
in the all-over health program of  
the nation.

Clarence Mack was re-elected  
president of the council for the  
year ahead.

The annual Cancer Crusade will

### ALSTON

Guests at the Frank Beaubler  
home on Sunday of last week were  
Mr. and Mrs. L. McLeod and fam-  
ily of Travers, Mrs. E. Williams of  
Carmangay and Mr. and Mrs. A.  
Dykstra and family of Parkland.

Recent visitors of Grandma Beau-  
bler and Irvin were Mr. and Mrs.  
J. Long of Calgary.

Miss Mabel Reath, having re-  
covered from the mumps, returned  
to her teaching position in Champ-  
ion.

Sunday visitors at the Cameron  
Middleton home were Mr. and Mrs.  
C. Raaschou of Pearce.

Supper guests of Mr. and Mrs.  
J. Middleton last Sunday were  
Mr. and Mrs. L. Gillet and Murray  
of Vulcan.

Mrs. Elva Smith and family  
motored to Cardston on Wednes-  
day of last week to attend a birth-  
day party in honor of Grandma  
Smith who was 88 years old.

Last weekend Mr. and Mrs. J.  
Carlson and family were guests of  
Mrs. Carlson's brothers, Ralph and  
Delbert Neilson and their respect-  
ive families at Cardston.

Sunday visitors at the George  
Mueller home were Mr. and Mrs.  
E. Bowie and Mrs. H. Fox, all of  
Vulcan.

The George Mueller home was a  
scene of festivities one evening  
last week when Larry Mueller cel-  
ebrated his ninth birthday. Among  
the 21 persons present for the oc-  
casion were Mr. and Mrs. D. Leb-  
sack and family of Champion.

Despite the small attendance at  
the card party and box social held  
at Alston last Friday, a pleasant  
atmosphere prevailed over the ev-  
ening. Court Whist was played  
with Mrs. R. Hubbard and Camer-  
on Middleton sharing honors for  
ladies and men's high respectively.

Howard Hagg and Steve Plytka  
were awarded consolation prizes.  
While their parents concentrated  
on the card games, the children  
played bingo for chocolate bars  
and popcorn balls. Following this  
Jerry Going auctioned off the boxes  
among which were a number of  
gaily decorated ones. Upon the  
close of the evening everyone went  
home in the anticipation of the  
next such gathering which will be  
held on Friday, March 12. It too will  
be a box social and card party  
combined.

Let's show our community spirit  
by supporting this next enterprise  
at the local hall board. Also, don't  
forget the dance at Alston this  
Friday. Turley's orchestra will be  
in attendance.

## In the Oil Business You put Before You Take!

One vital ingredient in the discovery of oil is money. Since 1946, the oil industry has made a tremendous investment in order to find new oil sources and develop the fields that have been found.

From this investment, the oil industry has yet to realize a profit return. Since 1946, for every dollar invested in oil exploration and development, the gross value of oil produced has amounted to only 54 cents. The net to the oil companies has been far less, for out of this return they have paid field operating expenses, royalties, taxes, and other charges.

Oil development in Western Canada is a long range program. In the oil business, you put before you take — but in the meantime the public has benefited through lower prices for petroleum products, increased employment, new industry and revenue to governments.

## Our Heritage

Ranching actually had its start in Alberta through the Fur Trading Companies. They tried to make each Post self-sufficient, and so encouraged the keeping of cattle, horses and pigs. Then along came a group of adventurers who settled along the frontiers and took up ranching as their means of livelihood. They had untamed Indians and wild beasts to contend with ... but they stuck it out, pushing the fringe of Alberta's frontier back still further.

The granddaddy of Alberta's cowboys in the early days was one, John Ware, a big negro over six feet tall ... one of the bravest men and greatest riders this country has ever seen.

To-day Alberta is famous as a ranching province. Many prizes have been carried off by Alberta ranchers and farmers for livestock entered in the Royal Agricultural Winter Fair, the Chicago International Grain and Hay Show and Livestock Exposition ... premier agricultural shows of Canada and North America. Now with a population of less than a million, Alberta produces enough meat to feed three times that number.

Listen to "OUR HERITAGE" featuring JOHN FISHER over the following Alberta Stations:

CFAC	8:30 p.m.
Thursday:	
CICA	10:15 p.m.
CKRD	9:00 p.m.
Friday:	
CJOC	9:30 p.m.
CFGP	8:15 p.m.

This week you will hear the heart-warming story of Alberta's Crippled Children.

The quality of cattle that stock the ranges of Alberta ... that go to the stockyards, commission firms and packing plants of Alberta ... is probably not excelled anywhere.

## The Wolf and the Crane

A WOLF once got a bone stuck in his throat. So he went to a Crane and begged her to put her long bill down his throat and pull it out. "I'll make it worth your while," he added. The Crane did as she was asked, and got the bone out quite easily. The Wolf thanked her warmly, and was just turning away, when she cried, "What about that fee of mine?" "Well, what about it?" snapped the Wolf, baring his teeth as he spoke; "you can go about boasting that you once put your head into a Wolf's mouth and didn't get it bitten off. What more do you want?"

**MORAL:** Many a man who takes long chances has nothing to show for it afterwards. Isn't it wiser to put part of your salary, every pay day, into a savings account with The Canadian Bank of Commerce? Then you will really be able to laugh at the wolf of adversity.

**You can't buy money**

Can you imagine buying two or five or ten dollar bills at bargain prices? Of course not!

Money isn't sold, it is rented. It is rented the way you rent an apartment or a rowboat or a bicycle. The value in borrowed money is the convenience of use. The "rent" for money is fixed by the risk taken or service rendered.

We have developed as a leader in the consumer finance field by offering a sound money service at the lowest possible rates consistent with intelligent business policy.

Household Finance encourages wise borrowing. Our booklet, "Money Management, Your Budget", is available at the nearest branch office, or by writing our Consumer Education Department, 80 Richmond Street West, Toronto, Ontario.

The deepest sympathy of the community is extended to Mrs. Charlie Carson in the loss of her father who passed away in a hospital at Red Deer.

The CGIT group are holding a Shamrock Tea on Saturday, March 13 from 2:30 to 5 p.m. in the Municipal office. Everyone is welcome.

The Provincial High School curlers returned from their trip to Hamilton on Sunday. They had a wonderful trip. All reported a good time and although they did not capture the trophy they had some close games and gave their opposition some stiff competition. The district is proud of their accomplishments.

The HSA held their executive meeting at the home of Mrs. R. Glaze. The next general meeting is at the school on Friday, March 12 at 8:30 p.m. On the program for that evening is a panel discussion on "Teacher Shortage" Mrs. C. L. Oldfield will act as chairman, and on the panel are F. Wheeler, Mrs. Ross Bertrand and Mr. R. Glaze and Rochelle Desharnais. A film will follow with lunch at the conclusion of the meeting. The general public is cordially invited to attend this program.

Don't forget to turn in your rifle stubs, unsold tickets and money by March 6 to Mrs. Lewis Ivers. The raffle for these blankets to take place on March 12 at the meeting.

Mr. and Mrs. Harold Beatty and family of Latham were guests for dinner on Sunday with Mr. and Mrs. Bartsch.

Due to mumps in the household of Mrs. John Papp it was necessary to change meeting place for the February meeting of the FWUA, so Mrs. Chester Thompson was hostess. Sixteen members answered the roll call. A motion was passed

to enter the action contest with Mrs. Wayne Monner in charge. During the past few years the local purchased several books and as these are in the hands of various members it was decided to have the books brought to the organization. After some discussion it was decided to collect clothing for Cerebral Palsy children.

Mrs. C. Thompson gave an interesting bulletin and display of handicraft which was much enjoyed.

The FWUA this year will make a study of Pakistan and the members concluded it would be better to purchase two books on this country rather than borrow from the Library and in this way have more time to study the subject.

It was also decided to have each member make an article from a flour sack for a sale or auction to be held at a later date.

A slight change will be tried in the routine of the meeting. Instead of the hostess planning the lunch as well as preparing her home for the meeting a committee of two other members will supply the lunch. Mrs. Wm. Francis will be hostess for the March meeting with Mrs. R. Bertrand and Mrs. H. Winch on the lunch committee.

At the close of the meeting Mrs. Thompson served a lovely lunch assisted by other members.
